

Seminar for 4th class

ENGLISH

as a global language

Do you lack the confidence to speak English in the
outside world?

Teacher: Michael ANSLOW

The aim of the seminar is to provide students with an environment where they will gain confidence in their speaking and listening skills.

We will practice and produce English through presentations, debates, discussions, colloquial and slang language, including idiomatic and proverbial English.

Does this sound up your street? If so, see you in September...
